
Wireless USB DWA Compliance Checklist

For the Wireless USB Specification 1.0
Checklist Version 0.70
December 20, 2006

USB Device Product Information

field	—all fields must be filled in—
Date	
Vendor Name	
Vendor Street Address	
Vendor City, State, Postal Code	
Vendor Country	
Vendor Phone Number	
Vendor Contact, Title	
Vendor Contact Email Address	
Product Name	
Product Model Number	
Product Revision Level	
Test ID Number	

Continued on next page

Product is based on the USB-IF Wireless USB 1.0 specification? (Yes/No)	
Product uses WiMedia Alliance Registered PHY? (Yes/No)	
Product is Self Beaconsing Device? (Yes/No)	
If Self Beaconsing Device, is Product WiMedia Alliance Platform Certified? (Yes/No)	
Product operates with USB-IF WHCI host PDK? (Yes/No)	
Product passes Wireless USBCV testing? (Yes/No)	
Product complies with Wireless USB DWA Test Specifications? (Yes/No)	
Product also operates as a Wired USB Hub? (Yes/No) If yes, complete Wired USB Hub Checklist	
If product operates as a Wired Hub, has USBHTT testing been completed for the Hub Silicon? (Yes/No)	
Signature of Preparer

0.70	Wireless USB Device Wire Adapter (DWA) Checklist	2006.12.20

1 Introduction

This checklist helps designers of Wireless USB DWA devices to assess their products' compliance with the Wireless Universal Serial Bus Specification, Revision 1.0. Unless explicitly stated otherwise, all references to the Wireless USB Specification refer to Revision 1.0.

This checklist is also used, in part, to qualify a Wireless USB product for the USB-IF Integrators List. This document and other Wireless USB compliance tools are available through the USB-IF's website. The compliance checklists are updated periodically, so developers should check for updates when starting new projects.

Questions or comments regarding the Integrators List, Compliance Workshop testing results, or checklist submissions should be sent to admin@usb.org. If you have questions regarding the checklist itself, feel it fails to adequately cover an aspect of the Wireless USB specification, have found an error, or would like to pose a question, please contact the USB-IF at checklists@usb.org.

1.1 General Notes

- This checklist will be expanded to include design questions in the near future. Check the USB-IF Website for the most current version of the checklists.
- This checklist refers to other required checklists. Include all applicable checklists when submitting this checklist.
