0.70	Wireless USB WHCI Compliant Host Checklist	2006.12.20

## 1 Introduction

This checklist helps designers of Wireless USB hosts to assess their products' compliance with the Wireless Universal Serial Bus Specification, Revision 1.0. Unless explicitly stated otherwise, all references to the Wireless USB Specification refer to Revision 1.0.

This checklist is also used, in part, to qualify a Wireless USB product for the USB-IF Integrators List. This document and other Wireless USB compliance tools are available through the USB-IF's website. The compliance checklists are updated periodically, so developers should check for updates when starting new projects.

Questions or comments regarding the Integrators List, Compliance Workshop testing results, or checklist submissions should be sent to [admin@usb.org](mailto:admin@usb.org). If you have questions regarding the checklist itself, feel it fails to adequately cover an aspect of the Wireless USB specification, have found an error, or would like to pose a question, please contact the USB-IF at [checklists@usb.org](mailto:checklists@usb.org).

### 1.1 General Notes

- This checklist will be expanded to include design questions in the near future. Check the USB-IF Website for the most current version of the checklists.
- This checklist refers to other required checklists. Include all applicable checklists when submitting this checklist.
