MCCI Showcases SuperSpeed USB Solutions

Product Demos at USB-IF Dev Con in Tokyo

WHO: [MCCI[®] Corporation](#), the world's leading developer of USB connectivity for the portable device industry. MCCI CEO Terry Moore is recognized as one of the leading experts in USB technology.

WHAT: MCCI is partnering with leading silicon and IP vendors to make SuperSpeed USB a reality. The MCCI-Japan team will be joined by colleagues from MCCI-Korea, MCCI-Taiwan, and the corporate headquarters office in New York, to explain and discuss xHCI and UAS implementations, as well as wired and Wireless USB solutions for hosts, standalone devices, and embedded device connectivity.

WHERE: The [SuperSpeed USB Developers Conference](#), in Tokyo, Japan. Visit us at Booth 7!

WHEN: May 20-21, 2009
