We are expanding the USB experience through quality and ease of use.

The Universal Serial Bus (USB) has gone beyond its original intent to connect peripherals to PCs and is now a prevailing standard in the interconnect market. USB can be found everywhere from PCs to consumer electronics to mobile devices. Because of its ease of use, speed and expandability, USB is the preferred connection for many consumers. This presents a continued market opportunity for the future.

In order to realize this opportunity, USB products must continue to enhance the consumers’ experience through high quality and ease of use. That’s why USB Implementers Forum, Inc. (USB-IF) developed trademark-protected USB Performance Packaging Logos, Port Logos, and Device Power Port Logos for use by qualified parties. To qualify for the right to display these logos, products must pass the specified USB-IF compliance testing for product quality.

USB Performance Logos at a glance

USB Performance-only Packaging Logos and Cable and Port Logos

USB Device Power Port Logos

USB Word Mark

USB4®
To maintain the integrity of the USB Performance Logos, all Guidelines must be followed. Refer to this page and the following section for a complete understanding of how to use the USB Performance Logos.

**Your Brand in Relation to USB Logos**  
Your company name, logo, or product name must appear on any products or related materials where the USB Performance Packaging, Port, and Device Power Port Logos are used. The Logos cannot be larger or more prominent than your product name, trademark, logo, or company name.

**USB Logo Usage Certification Requirement**  
As stated in Section 2 of the USB-IF Trademark License Agreement, a Certified USB-IF logo may be used solely in conjunction with a product that has been submitted to and passed the USB-IF Compliance Testing Program and are included on the USB-IF Integrators List. The company also must have a valid USB-IF Trademark License Agreement on file. USB-IF Certified Logos cannot be used generically on your website or product packaging, collateral, advertisements, or manuals.

**Important:** Please refer to the USB-IF Trademark License Agreement Mark Requirements Chart for details regarding the USB-IF Test Procedures and other requirements.

**USB Logos Must Not Be Altered**  
You must use the logos exactly as they are shown in the USB-IF digital artwork files; you may not imitate the USB Performance Packaging, Port, and Device Power Port Logos in any of your materials.

**USB Logos May Not Be Used as a Design Feature**  
The USB Performance Packaging, Port, and Device Power Port Logos may not be used as a design feature on any of your materials.

**USB Logos Can Not Be Combined With Any Other Feature**  
You may not combine the USB Performance Packaging, Port, and Device Power Port Logos with any other feature, including other marks, words, graphics, photos, slogans, numbers, design features, or symbols.
Word Mark and Trademark Attribution Statement

**USB-IF Word Mark**
“USB4®” is a registered trademark of USB Implementers Forum and is only for use with products based on and compliant with the USB4® specification.

The trademark notice symbol ® must be included in the first instance of “USB4®” in any material. USB4® should not be translated into languages other than English.

**Trademark Attribution Statement**
The trademark attribution statement should be included in any materials using the word mark “USB4®”

**USB4®**

**Trademark Attribution Statement**

*USB4® is a registered trademark of USB Implementers Forum.*
USB Packaging Logos

The USB Packaging Logos may be used by companies with a valid USB-IF Trademark License Agreement on file. Products using the Packaging Logo must indicate the port’s signaling capability (i.e. 5Gbps, etc.) that have been submitted to and passed the USB-IF Test procedures for the corresponding performance and have been posted on the USB-IF Integrators List.

The USB Packaging Logo may be reproduced only in the versions shown in this document and may not be altered in any way. Please note that the trademark (™) and the word “certified” are integral parts of the Logos. They are considered part of the Logo art and should not be altered in any way. The Logos must be reproduced from the USB-IF digital artwork files.
USB Port Logos

The USB Port Logos may be used by companies with a valid USB-IF Trademark License Agreement on file and indicates the port’s signaling capability (i.e. 5Gbps, etc.). The USB Port Logo may be used on End Product Host(s) with certified Si regardless of whether the end product is certified. The USB Port Logos may also be used on Host(s), peripheral device(s), or hub(s) when the entire end product is certified and has been posted on the USB-IF Integrators List.
USB Device Power Port Logos

The USB Device Power Port Logo may be used by companies with a valid USB-IF Trademark License Agreement on file. The USB Device Power Logo may solely be used in conjunction with products consisting of Host(s), peripheral device(s), or hub(s) that have been submitted to and passed the USB-IF Test procedures for the corresponding performance, USB Power Delivery and USB Type-C® testing requirements, and have been posted on the USB-IF Integrators List.
USB Packaging Logo Spacing

These requirements apply to use of the USB Packaging Logos and must be followed.

**Minimum Clear Space**
Avoid visual clutter by maintaining a minimum amount of clear space around the Logo that is equal to 1/2 the height of USB.

**Minimum Size for Print**
The minimum width of the Logo is 1 inch (25.4 mm).

**Minimum Size for On-Screen**
The minimum width of the Logo is 82 pixels.

**Logo Alignment**
To align the Logo correctly with margins or other elements, use the top and left edge of the circular arc.

**Examples**

**Minimum Clear Space**
Minimum Size for Print Minimum Size for On-Screen

Minimum Size includes the logo Clear Space, indicated by the blue margin.

**Logo Alignment**
Align Top Edge of “Certified” for Vertical Alignment
Align Left Edge of double-line cable graphic for Horizontal Alignment
USB Port Logo Spacing

These requirements apply to use of the USB Port Logos and must be followed.

**Clear Space**
Avoid visual clutter by maintaining a minimum amount of clear space around the Logo that is equal to the height of cable end device for the size selected.

**Minimum Size**
The minimum size of the largest dimension of the Logo is .2 inches (5 mm).

**Logo Orientation**
The Logo can be oriented horizontally or vertically.

**Please Note:** The USB 80Gbps Port Logo is only to be used on devices.

Example

Licensee is not obligated to use the “™” and may omit the trademark ™ symbol on the USB Port Logo for mobile and non-mobile Product, for which the Licensee is printing/engraving on chassis where the reasonable alternatives for the location and size of the Logo do not allow for the symbol to have a maximum dimension of 15mm or more. This permission is limited only to these exact situations.

Where the symbol is so omitted, the manufacturer/Licensees must include the following statement (corresponding the appropriate Port Logo) in their user's manual/printed materials accompanying the Product: “The USB 80Gbps Port Logo is a trademark of USB Implementers Forum, Inc.” and must be accompanied with the image of the mark with the correct rendering of the ™.
Logo Usage

USB Device Power Port Logo Spacing

These requirements apply to use of the USB Device Power Port Logos and must be followed.

Clear Space
Avoid visual clutter by maintaining a minimum amount of clear space around the Logo that is equal to the width of the battery terminal for the size selected.

Minimum Sizes
The minimum size of the largest dimension of the Logo is .2 inches (5 mm). Measurement does not include the “™”.

Logo Orientation
The Logo can be oriented horizontally with the battery terminal to the right or vertically with the battery terminal to the top.

Licensee in not obligated to use the “™” and may omit the trademark ™ symbol on the USB Device Power Port Logo for mobile and non-mobile Product, for which the Licensee is printing/engraving on chassis where the reasonable alternatives for the location and size of the Logos do not allow for the symbol to have a maximum dimension of 15mm or more. This permission is limited only to these exact situations.

Where the symbol is so omitted, the manufacturer/Licensees must include the following statement (corresponding the appropriate Device Power Port Logo) in their user’s manual/printed materials accompanying the Product: “The USB 80Gbps Device Power Port Logo is a trademark of USB Implementers Forum, Inc.” and must be accompanied with the proper USB Device Power Port image of the mark with the correct rendering of the ™.
USB Packaging Logo Color Formulas

These requirements apply to use of the USB Packaging Logo and must be followed.

The USB Packaging Logos have been created as a 2-color Logo. (Other color versions are shown on the following pages). It is best to reproduce the Logo using the PANTONE® numbers shown at the right. When reproducing these colors in 4-color process inks, or on-screen (RGB), the screen tints listed here should be used.

Different color models may reproduce the USB Red and USB Blue with slight color variations, e.g., a Logo printed using USB Red as a spot color may result in a slightly different hue of red when compared to one printed using 4-color process or compared to an on-screen (RGB) Logo.

PANTONE Colors displayed here may not match PANTONE-identified standards. Consult current PANTONE Color Publications for accurate color. PANTONE® is the property of Pantone, Inc.

Example

USB 80Gbps Packaging Logo Colors

USB Red
PMS
PANTONE® 185C
CMYK
C0 - M91 - Y76 - K0
RGB
R235 - G0 - B41

USB Blue
PMS
PANTONE® 653C
CMYK
C100 - M62 - Y0 - K20
RGB
R52 - G96 - B148
USB Packaging Logo Color Versions

Two-Color Logo
The 2-color version is the preferred version of the USB Packaging Logos.

One-Color Logo
The 1-color, black version of the USB Packaging Logos should be used for single-color applications.

Reversed Logo
The reversed version of the USB Packaging Logos should be used on dark backgrounds and over photography. When placed over photography make sure to use photographs that have enough tone to support the Logo and don’t prohibit legibility.

Note:
PANTONE Colors displayed here may not match PANTONE-identified standards. Consult current PANTONE Color Publications for accurate color. PANTONE® is the property of Pantone, Inc.

Examples

Two-Color Logo
USB Red PANTONE® 185C
USB Blue PANTONE® 653C

One-Color Logo
Black

Reversed Logo
On dark-colored background
USB Performance Packaging Logos
Improper Usage

Proper use of the USB Logos strengthens their effectiveness each time they are seen. The following examples depict unacceptable uses of the USB Logos for both print and on-screen applications. These examples use the USB 20Gbps Packaging Logo but apply to the USB 5Gbps, 10Gbps, 40Gbps, and 80Gbps Packaging Logos as well.

You must use the Logos exactly as they are shown in the USB-IF digital artwork files. No alterations are permitted.

1. Don’t place the Logo on a busy background.
   A busy background would not follow the clear space guidelines, spelled out earlier in this document.

2. Don’t change the colors of the Logo.

3. Don’t use any version of the Logos without the “double-line cable graphic.”

4. Don’t use the Logo without the trademark ™ symbol.

5. Don’t use the Logo without the word “CERTIFIED”.

6. Don’t use the USB Performance Packaging Logos without their speed indicators.
Including the USB Performance Logos on Various Materials

Incorporating the USB Performance Packaging Logos, Port Logos, and Device Power Port Logos into your packaging, marketing materials, advertisements and manuals strengthens your marketing efforts by informing your consumers of the USB compatibility of your product(s). The following pages show samples of various marketing materials and examples of the USB Performance Logo placement.

Examples shown on this page can only be used in correlation with a product that has been certified by the USB-IF and met the specific certification requirements.

USB Performance Logo Layout examples at a glance

Packaging

Collateral and Advertising

Manuals
USB Performance Packaging

Packaging is printed in a variety of ways. Coarse printing, such as flexography on corrugate or screen printing on various materials, may benefit from using the 1-color or the reversed Logo. Product that is printed using finer printing methods, such as 4-color process, can choose any Logo that best fits its Product box’s design. The goal is to choose the Logo that will reproduce most attractively onto the material upon which it is being printed.

Example shown on this page can only be used in correlation with a product that has been certified by the USB-IF and met the specific certification requirements.
USB Performance Collateral and Advertisements

**Collateral**
Where you are not restricted by color, the full-color Logo can be used for your print material. In situations where color is restricted, use the 1-color or reversed versions of the Logo.

**One-Color Advertisements**
For 1-color newspaper advertisements, use the black or reversed version of the Logo.

**Full-Color Magazine Advertisements**
Full-color magazine ads may use the 1-color, reversed or full-color versions of the Logo, choosing the Logo that works best with the design of the ad.

Examples shown on this page can only be used in correlation with a product that has been certified by the USB-IF and met the specific certification requirements.
USB Performance Manuals

Where the TM symbol of the USB Performance Port Logos and Device Power Port Logos have been omitted on the printing/engraving on Product chassis, the manufacturer/Licensees must include the following statement(s) in their user’s manual/printed materials accompanying the Product:

**Statement 1**
“The USB 5Gbps Port Logo is a trademark of the USB Implementers Forum, Inc.”

**Statement 2**
“The USB 10Gbps Port Logo is a trademark of the USB Implementers Forum, Inc.”

**Statement 3**
“The USB 20Gbps Port Logo is a trademark of the USB Implementers Forum, Inc.”

**Statement 4**
“The USB 40Gbps Port Logo is a trademark of the USB Implementers Forum, Inc.”

**Statement 5**
“The USB 80Gbps Port Logo is a trademark of the USB Implementers Forum, Inc.”

**Statement 6**
“The USB Device Power Port Logo is a trademark of the USB Implementers Forum, Inc.”

The statement(s) must be accompanied with the proper USB Performance Port Logos and Device Power Port Logos image of the mark(s) with the correct rendering of the TM.

Example shown on this page can only be used in correlation with a product that has been certified by the USB-IF and met the specific certification requirements.
Art Files

The following USB Performance Logos are available in various digital file formats.

USB 5Gbps, USB 10Gbps, USB 20Gbps, USB 40Gbps, and USB 80Gbps Packaging Logos, Port Logos, and Device Power Port Logos

Print Applications
Encapsulated Postscript (EPS) files were created in Adobe® Illustrator® and can be reproduced at any size without compromising quality. Use these versions for printing. Each version is a separate file. Logos can be printed using either PANTONE® colors or the 4-color process mix specified on page 6. Type has been converted to outlines; no fonts are required to reproduce the Logos. The files have been saved for both Macintosh® and PC.

* Third-party names and brands are the property of their respective owners. PANTONE® is the property of Pantone, Inc.

On-Screen Applications
These versions are for on-screen applications such as the Web or Microsoft® PowerPoint® presentations. They have been created in RGB color mode and should not be used for offset printing. These versions were rasterized in Adobe® Photoshop® from Adobe Illustrator files (with the exception of the EPS files). Keep in mind that these files look their best when placed at 100% size, or smaller.

PNG and or JPG files are provided for use in on-screen applications.

EPS files were created in Adobe® Illustrator® and are saved in RGB color format. These files are to be used in software applications that utilize vector-based artwork, e.g., Adobe® Flash®.
